## FACULTY OF INFORMATICS

### Department of Computer Science & Software Engineering

Main Campus: Mexico Square, Next to Wabi Shebele Hotel · P.O. Box 1211 / 18490, Addis Ababa, Ethiopia

Tel: +251 11 558 0616 / +251 11 554 6669 · Fax: +251 11 558 0559 · Email: [informatics@smuc.edu.et](mailto:informatics@smuc.edu.et) · Web: [www.smuc.edu.et](http://www.smuc.edu.et)

Ref. No.: SMU/FI/SE/REC/2026/\_\_\_\_\_

Date: October 15, 2026

To: The Graduate Admissions Committee & Chinese Scholarship Council (CSC)

Application Cycle: Academic Year 2026 / 2027

**SUBJECT: Letter of Recommendation for Mr. Fuad Ahmed (MSc Software Engineering / Computer Science)**

Dear Members of the Admissions Committee,

I am writing this letter to recommend **Mr. Fuad Ahmed** with great enthusiasm for admission to your Master of Science program in Computer Science and Technology / Software Engineering, supported by the Chinese Government Scholarship (CSC) or University Fellowship.

As an Assistant Professor / Senior Lecturer in the Faculty of Informatics at St. Mary's University, I served as Fuad's instructor for *Web and Internet Programming, Software Engineering Methodology, and Distributed Applications*, and advised him across multiple departmental programming projects.

During his studies, Fuad demonstrated remarkable aptitude for software engineering principles and systems architecture. In my classes, he consistently demonstrated an ability to synthesize abstract theoretical computer science concepts into robust, well-engineered production code. His coursework in web technologies and design patterns was characterized by elegant modularity, adherence to Test-Driven Development (TDD), and comprehensive documentation.

Fuad's academic record speaks for itself—achieving an **A** grade in Web & Internet Programming and maintaining a strong **3.20 Major GPA** across his core computing subjects. What impresses me most about Fuad is his dedication to continuous self-improvement. While still an undergraduate, he actively mastered cross-platform mobile frameworks (Flutter) and backend architectures (Laravel/REST), independently architecting solutions to solve real-world challenges in Addis Ababa, such as crowdsourced geospatial mapping and offline-first mobile synchronization.

Furthermore, Fuad exhibits exceptional character, integrity, and cultural adaptability. His English communication skills are proficient, as his entire undergraduate degree was conducted strictly in the English medium of instruction. I wholeheartedly recommend **Mr. Fuad Ahmed** for admission and scholarship consideration.

Sincerely,

**[Professor's Full Name]**

Assistant Professor / Senior Lecturer
